As a passionate and dedicated game programmer, I am driven by the desire to bring immersive and engaging gaming experiences to life. With a solid foundation in programming languages such as C++, C#, and Python, I have honed my skills through coursework and personal projects, demonstrating my ability to design, implement, and optimize game mechanics and systems. I thrive in collaborative, creative environments and relish the opportunity to work alongside talented designers and artists to transform ideas into interactive realities.

Key Skills

- **Game Design:** Proficient in designing game mechanics, creating game prototypes, and developing engaging gameplay experiences.
- **Game Engines:** Familiar with Unity, including level design and scripting.
- **Coding:** Strong knowledge of programming languages (C#, C++, Java, Python) for game development and object oriented programming.
- **User Experience (UX):** Understanding of user-centered design principles to enhance player experience.
- **Problem Solving:** Strong analytical and critical thinking skills to address design challenges.
- **Team Collaboration:** Effective communication, collaboration, and leadership in multidisciplinary game development teams.
- **2D/3D Art:** Basic proficiency in Adobe Creative Suite, Blender.

Objective

Enthusiastic and creative game designer, seeking an internship opportunity to gain hands-on experience in the game development industry. My fascination with emerging technologies and my commitment to staying up-to-date with industry trends make me eager to contribute to cutting-edge game development projects. Hopeful to contribute my passion for learning more better programming practices, and contributing interesting ideas to a dynamic game design team.

Education

Bachelor of Science in Game Design; Minor in Computer Science & Information Systems

Bradley University, Peoria, IL | August 2021 - Present

- Game Design Fundamentals
- Game Mechanics and Gameplay
- Object Oriented Programming & Data Structures
- User Experience (UX) Design
- Game Development Tools and Technologies (Mostly experience in Unity)

Proficient Software Development Languages

C#, C++, Java, Python

Professional Experience

Pool Manager

Park Ridge Park District | December 2017 - Present

- Trained and supervised a staff of over 150 lifeguards during the summer season.
- Created and maintained an accurate pool schedule.
- Assisted in the development and implementation of pool programming and special events.
- Ensured the smooth and efficient operation of the pool, including maintenance of safety standards, facility cleanliness, and customer service.

Front of House Server

Dac's Smokehouse | October 2022 - February 2023

- Provided customers with menus and answered questions about menu items.
- Took orders for food and beverages and delivered orders to guests in a timely manner.
- Processed cash and credit card payments.

Package Handler

Fedex | December 2021 - January 2022

- Loaded and unloaded packages weighing up to 200lbs with speed and accuracy.
